The Faculty Engagement Officer in CEM is here to help if you have a disability, medical condition, mental health condition or specific learning difference such as dyslexia, or believe that you may have one, we may be able to help you access support for your studies.

We work closely with colleagues in the Student Gateway, Wellbeing Team and Disability Advice and Support Team to ensure that support is offered to students with disabilities throughout their studies.

We can also pass relevant support information to your tutors so they are aware of any support needs you may have.

Please contact us to discuss any individual support requirements and/or with any disability queries.
